Be not among winebibbers; among riotous eaters of flesh: For the drunkard and the glutton shall come to poverty: and drowsiness shall clothe a man with rags.

Sex differences in human physiology are distinctions of physiological characteristics associated with either male or female humans.

Female physiology: Ejaculation Estrogen Orgasm Ovum. Male anatomy: Bulbourethral glands Corpus cavernosum Ejaculatory ducts Epididymis

We're used to sexual anatomy being framed as male or female, but we're not going to do it that way this time. We don't need to, we'd rather not,
